

Free DFI Membership for Students

February 2016

Dear Friends of DFI,

Deep Foundations Institute® was incorporated in 1976 in the State of New Jersey as a non-profit association. DFI is an international association of contractors, engineers, suppliers, academics and owners in the deep foundations industry. Our multi-disciplinary membership creates a consensus voice and a common vision for continual improvement in the planning, design and construction of deep foundations and excavations.

Our Mission Statement

is to bring together multi-disciplined individuals and organizations to find common ground and create a shared vision and a consensus voice for continual advancement in the deep foundations industry.

We are very happy to inform you that the Deep Foundation Institute has opened up a free membership for students during two years.

This free **Student Individual Membership** is allowed for students who provide a copy of their school ID with submission of their application. Free membership is available for students enrolled in a deep foundations related curriculum for up to 2 years.

See also www.dfi.org.

By offering a free membership for students during a limited period, we expect to attract people who are focused on a career in deep foundations. We make an appeal to you to circulate this flyer under the students in geotechnics and adjacent courses and would appreciate if you would support our approach. Of course, you are more than welcome to become an Individual Member yourself (if you are not already one).

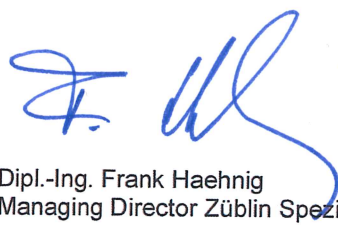

Yours sincerely,

Deep Foundations Institute / DFI Europe

Prof. Dr.-Ing. Rolf Katzenbach
Technische Universität Darmstadt

Member of the DFI Europe Board

Dipl.-Ing. Frank Haehnig
Managing Director Züblin Spezialtiefbau, Stuttgart

President of the DFI Europe Board
